Dominator D2X Late Model Nose Kit

The D2X Dirt Late Model Nose kit is approved for use in all the racing series in the USA. The D2X nose kit features a flange fit nose center for that perfect fit. The D2X fender flares lay over the nose piece side to allow for adjustability of the flare. This makes a perfect fit also allowing you to yaw the nose kit for better aerodynamics. The D2X nose kit is easy to install and is built with a Hi-Impact durable plastic that we have been using for years. "Just can't beat a good thing" as we say.

With the "Slick Aerodynamic Design" and "Lower Right Side Flare" the D2X nose kit gives you the best "Aero-Package" for dirt late model racing. The Nose package includes the L/R Nose & L/R Flares. Adding to the "Aerodynamic features a 2-piece lower "Aero-Valance" is available, which enhances the air flow up and over the car. The lower "Aero-Valance" is offered in 10 colors for a 2-tone color feature.

Featuring 12 styles of our headlight decals available for the D2X nose kit.

The D2X Nose Kit is the perfect fit for Late Model Crate Cars & Sportsman Cars.

Re-designed Right side Flare "Aerodynamic Lower Flare"

The re-designed D2X right side fender flare is only offered in the "Aerodynamic Lower Version".

Allows for a smooth "Air Flow" over the deck of the car creating "Over-All Downforce"

Left side flare 4" in height

"Meets all Rules"

Wider wheel flange equals "More Side Downforce"

Re-designed wheel well opening - "Better Wheel Clearance"

"Wider Air-Dam & Lower Valance"

Dominator Ultimate Body Panels

The Ultimate Body Panels were developed to reduce time when fixing or replacing bent aluminum panels.

The Ultimate Body Panels are a blend of advance composites that offer a dent-free surface.

After many test & samples we have developed a very durable light weight panel.

that can take a high impact hit with no damage at all. The bending of a 90* angle in the metal break is not possible with the Ultimate Panels most teams are bolting the sides & quarter panels on.

Advance Light Weight Racing Composite

- Extremely durable built for dirt car racing
- Stronger than racing aluminum with better tear strength
- Extremley high impact resistance
- Same weight per square foot as .040 aluminum
- Pre-cut sizes for-Filler panels-Hoods-Doors & Quarter Panels

- Panels can be bowed or curved when installing
- Never pound out dents again
- EZ application for body wraps & graphics
- Not to metion the savings on graphics & stickers
- Standard metal shears or tin snips will work when cutting

DOM-750	Filler Panel	30" x 70"	\$ 215.00
DOM-755	Hood	50" x 50"	\$ 245.00
